June 15, 2004

— 83rd NCAA Championships —

AUSTIN, TEXAS, JUNE 9–12

Attendance:

Figure released only for final day—14,000

Weather:

6/9—temperature range 70–82 (21–27C), average humidity 87%, heavy rainstorm wiped out most of schedule; lightning forced stands to be cleared; strong gusty winds.

6/10—temperature range 72–89 (22–31C); average humidity 78%; strong gusty winds.

6/11—temperature range 76–90 (24–32C) average humidity 82%; strong gusty winds; thunderstorm interrupted decathlon briefly.

6/12—temperature range 76–91 (24–32C) average humidity 75%; strong gusty winds.

Storm forces changes in qualifying procedure:

With the raining-out of most of the first day, all semifinals in running events were canceled. Field event qualifying the first day was wiped out in the mLJ, mDT, wPV, wLJ, wDT—for these events the finals were contested flights (which took forever). For other field events (including the wJT, which did get done the first day) separate qualifying rounds were still held.

Stats:

First names are not repeated within the same event, but are repeated in a second event. Paragraph-breaks in the middle of a prelim indicate the division between qualifiers and non-qualifiers. Subsequent viewing of video might tweak some of the splits.

There are apparently three scenarios for the immediate future hosting of the NCAA, with the meet going to either Sacramento or staying in Austin. If it goes to Sacramento it would be for three years; if it stays in Austin it might be for an addition three years or just for three years starting with '04
