Key To NCAA Statistics

First names are not repeated within the same event, but are repeated in a second event. Paragraph-breaks in the middle of a prelim indicate the division between qualifiers and non-qualifiers. Subsequent viewing of video might tweak some of the splits.

All athletes are seniors unless marked with asterisks: ***=frosh; **=junior; *=soph.

A combination of numbers and letters in parentheses, such as (x, 5 W), (3, 7 A) or (9, x C) indicates the athlete's position on the all-time top 10 performer and performances listings.

In the (x, 5 W) example the athlete has a better PR, therefore there is an "x" in the first position. But it's still the No. 5 world performance ever. (W=World; A= American; C= Collegiate; J=Junior; NCAA=NCAA Championships).

The (3, 7 A) example means that the person moves to No. 3 on the all-time U.S. performers list, with the No. 7 performance. And (9, x C) means the athlete becomes the No. 9 collegian ever, but the performance is outside the top 10. Marks making top 10s are bold-faced. Any records are both bold-faced and printed in red.

We also denote yearly list leaders for the world (WL), U.S. (AL) and NCAA Div. I schools (CL).

All wind readings are in meters per second, and any positive reading over 2.0 (4.47mph) is illegal ("w").

note: splits in all events remain subject to change
