## — USATF Men's Champs/WC Trials —

### CARSON, CALIFORNIA, JUNE 23–26

Meet held on Home Depot Center's 9-lane track.

**Attendance:** 6/23—5237; 6/24—5710; 6/25—10,194; 6/26—9802 (total 30,943)

**Weather:** all four days with high about 75; evening sessions first two days dropped to 65. Clouds early giving way to haze; gusty winds always.

### Making The U.S. Team

All those who had the requisite A-qualifier and finished in first 3 are shown in blue ink. If there aren't 3 people in blue, an explanation is given at the end of the event. Those seeking to get qualifiers have been given until July 23 by USATF (as compared to the IAAF deadline of July 25) to achieve the needed mark. A B-standard winner trumps an A-standard placer, but multiple A-standard placers will supplant a B-standard winner.

### Key To USATF Results

First names are not repeated within the same event, but are repeated in a second event. Paragraph-breaks in the middle of a prelim indicate the division between qualifiers and non-qualifiers. Subsequent viewing of video might tweak some of the splits.

Affiliations are as officially entered in the meet, meaning that many who had collegiate affiliations at the NCAA are listed differently here, even though our year-end list will retain the scholastic connection. Collegians entered as "unattached" were given their collegiate affiliation.

A combination of numbers and letters in parentheses, such as (x, 5 W), (3, 7 A) or (9, x C) indicates the athlete's position on the all-time top 10 performer and performances listings.

In the (x, 5 W) example the athlete has a better PR, therefore there is an "x" in the first position. But it's still the No. 5 world performance ever. (W=World; A= American; C= Collegiate; J=Junior; NCAA=NCAA Championships).

The (3, 7 A) example means that the person moves to No. 3 on the all-time U.S. performers list, with the No. 7 performance. And (9, x C) means the athlete becomes the No. 9 collegian ever, but the performance is outside the top 10. Marks making top 10s are bold-faced. Any records are both bold-faced and printed in red.

We also note yearly leaders for the world (WL) & U.S. (AL).

All wind readings are in meters per second, and any positive reading over 2.0 (4.47mph) is illegal ("w").
