Who's Going To Osaka?

The USATF protocol for figuring who will actually make the World Championships team is, to say the least, difficult to understand in places, given new rules put in place to meet the IAAF's changed stance on A and B qualifiers.

There has been no official word yet, so we will here give you a *rough* guide as to what we think is up. We believe that all the athletes we have in red are "guaranteed" spots in Osaka. We believe that the athletes in blue are in line for a spot, but marks made between now and August 1 (the USATF deadline) could change their status.

There *might* also be people not marked in blue who are still in line to chase positions on the team. But we think we're pretty close! (We felt closer yesterday doing the men's team—rumors of more variables are cropping up.)

If you'd like to wade through the USATF protocol, go to http://www.usatf.org/events/2007/IAAFWorldOutdoorChampionships/entry/selectionProcedures_TF.asp

Key To USATF Results

First names are not repeated within the same event, but are repeated in a second event. Paragraph-breaks in the middle of a prelim indicate the division between qualifiers and non-qualifiers. Subsequent viewing of video might tweak some of the splits.

Affiliations are as officially entered in the meet, meaning that many who had collegiate affiliations at the NCAA are listed differently here, even though our year-end list will retain the scholastic connection. Collegians entered as “unattached” were given their collegiate affiliation.

A combination of numbers and letters in parentheses, such as (x, 5 W), (3, 7 A) or (9, x C) indicates the athlete’s position on the all-time top 10 performer and performances listings.

In the (x, 5 W) example the athlete has a better PR, therefore there is an “x” in the first position. But it’s still the No. 5 world performance ever. (W=World; A= American; C= Collegiate; J=Junior; NCAA=NCAA Championships).

The (3, 7 A) example means that the person moves to No. 3 on the all-time U.S. performers list, with the No. 7 performance. And (9, x C) means the athlete becomes the No. 9 collegian ever, but the performance is outside the top 10. Marks making top 10s are bold-faced. Any records are both bold-faced and printed in red.

We also note yearly leaders for the world (WL) & U.S. (AL).

All wind readings are in meters per second, and any positive reading over 2.0 (4.47mph) is illegal (“w”).

World Record Alert! Geb has done it again, claiming WRs in the hour-run and 20K en route. Details in next week’s edition
