Oerter Leads Great Discus Competition

by Dick Drake

Modesto, Calif., May 28--At the conclusion of the silver anniversary and another great version of the California Relays, it was the discus competition that stood out as the best over a world's record, other quality marks and a series of exciting competitions.

This was to be only the second time that the two sensational discus throwers of our time, Al Oerter and Ludvik Danek, would meet, the first being the 1964 Olympics in which Oerter triumphed over the Czech despite a painful rib injury. In the interim, three-time Olympic champ Oerter had competed in only three meets, all in 1966 after resting in the post-Olympic campaign, while Danek raised his own world record that he had wrested from Oerter in 1964 to a 7'5 $\frac{1}{2}$ " advantage, 213'11 $\frac{1}{2}$ " to 206'6". Only injured Jay Silvester and Bill Neville were missing from the greatest collection of discus throwers assembled for one meet--and the results substantiated this.

Oerter never trailed Danek, put his last four tosses at least 202-feet and won with a lifetime best of 207'5", while Danek fouled twice, had two measured beyond 201-feet and wound up second at 195'9". Oerter's series went 195'5", 196'4", 207'5", 204'10 $\frac{1}{2}$ ", 202'0" and 205'4" while Danek threw 194'8", foul, 189'3", 205'9", foul and 201'9".

Ninth place went with 190'6" as 17, including three in the junior college division, exceeded 170-feet. And only the first five received more than three throws! Longer first and second place marks have been recorded in other meets, but every placer from third through 11th achieved a superior mark for his particular placing in this California Relays. The event was staged in late afternoon in cooler than normal 70° and a slight quartering wind from the right.

Throwing in only his second meet this season after a winless campaign of seven meets in 1965, Rink Babka came through with his third greatest meet as he reached 201'1". His worst effort was his first at 195'10" while his best was his last with intermediate efforts of 199'6", 199'0", 198'1" and 197'10". George Pace established a Canadian record of 196'10 $\frac{1}{2}$ " followed by a foul mark of 201-feet for fourth place as Randy Matson nabbed 195'1" for fifth. Others over 190-feet included Arizona State's Jon Cole at 192'0", Stanford's Bob Stoecker 192'0" (lifetime best), John McGrath 190'8" and Dave Weill 190'6".

The only bad aspect to this stupendous parade of performances was that few of the spectators had a good view of it. Meet promoter Tom Moore had attempted to stagger the javelin, hammer and discus competition in the afternoon before the early evening track events were scheduled, but the result was not fully successful since the events overlapped. And the discus, along with the hammer, is held in an adjacent area in view of less than half the crowd--and then only through field glasses and over the heads of several hundred fans who crowd the arc lines. It's very difficult to stage either the discus or hammer inside the stadium because of the long running straightaways which make the infield narrow. As long as these fields are so talented, the solution seems to be to contest each of these events two hours apart beginning at 1:00 p.m. . . And then the track nuts will be happy.

Grundy Harris, who failed to place in the open 100-meters, was the key man in both of Southern's victories in the 440 and 880 relays. Running in the second spot primarily because he is not a fast starter, he broke up both relays and particularly the 440 which went in world record time of 39.6, a tenth better than Stanford's surprise mark of last year at Fresno. Joining him on the record breaking team were Harvey Nairn, Webster Johnson and George Anderson. Texas Southern finished second with James Hines anchoring in 39.9 as Tommie Smith, back some 15 yards, brought San Jose State to a 40.3 third place, one-tenth ahead of New Mexico. Southern won the 880 and mile relays easily, in 1:23.0 and 3:10.6.

The open 440 and 880 were competitive dandies and fast races despite the cool and gusty wind conditions.

The quarter-mile field was outstanding with last year's AAU and NCAA champs, Ollin Cassell and Jim Kemp of Kentucky State, and the world's leader this year in Tommie Smith and five others with 46.4 faster clockings. Kemp dashed to the front almost from the

gun, with Cassell in close pursuit. Kemp extended his lead by the 220 as Smith was dead last in the field of eight. Smith was no better than fifth as he came off the curve for the final 120 yards. In the most exciting move of the meet, Tommie smoothly but powerfully blasted passed this great field of sprinters with overwhelming ease to win from Kemp by seven-tenths in 45.7 to equal his world's best this year. Third, fourth and fifth places went to newcomers Bill Calhoun of Oklahoma, 46.7, Bob Frey of UCLA, 46.8, and Rupert Hoilette of Southern California frosh, 47.6, as they bested three renowned veterans in Southern's Webster Johnson, 48.0, Cassell, 48.5, and Kent Bernard of Trinidad, 49.7.

The half-mile field was spiced almost at the last minute by the entry of Jamaica's George Kerr, who had run 1:46.9 for 800-meters in mid May. It was San Diego State's Rick Herrmann who led past the 220, 440 and 660 posts in 24.7, 51.5 and 1:18.6; at the quarter, trailing were Texas Southern's George Hunt, Kerr, UCLA's Dennis Breckow, Czechoslovakia's Tomas Jungwirth, Dave Fishback, San Jose State's Ken Noel, Nebraska's Peter Scott and BYU's Ron Stone. The most excitement occurred when Scott, in eighth with about yards to go, sprinted into fourth right behind Herrmann, Hunt and Kerr. Off the curve, Hunt surged past Herrmann and Scott darted ahead of the slowing Herrmann and fading Kerr. And the finish produced good times, as the first three all bettered their lifetime bests: Hunt 1:47.5, Scott 1:47.8 and Herrmann 1:48.0. Kerr was timed in 1:48.1, Jungwirth 1:48.7 and Fishback in his best of 1:49.1. Hunt's 1:47.5 is the world's fastest and only 1.1 seconds off the US record.

The hammer, like the discus, included the world record holder from Europe, Gyula Zsivotzky of Hungary, who was pressed by America's best, Hal Connolly and Ed Burke. Zsivotzky won with 224'10"; his first five throws were all over 220-feet. Connolly was only six inches back and Burke 1'9" back for the best hammer competition ever in the US. With American record holder John Tushaus absent, Lennart Hedmark set a new Swedish record in the javelin at 268'10" and also had marks of 256'0" and 259'9" to top Ed Red's best since 1964 of 259'3". Matson only took two puts in the shot because of an injured hand, and still managed 65'3 $\frac{1}{2}$ ". John Pennel reached 16'10" as world record holder Bob Seagren failed to clear 16'2".

The two-mile relay was built up as one of the meet's leading events but chance for an outstanding time apparently was ruined by the biting wind. It also lost some of its drama when Oklahoma State elected to run with an ineligible athlete and call itself the Oklahoma State Track Club. Southern California made it an interesting battle for 5 $\frac{1}{2}$ of the eight laps, with the difference being Dave Buck's tying up in the final 120 yards on the third leg. OSTC won in 7:23.2, with Southern Cal in 7:25.0. The fastest leg was a 1:49.6 by Jim Metcalf.

The first four finishers in the 100-meters were credited with 10.2 times, with the order of Lennox Miller of Southern Cal followed by James Hines of Texas Southern, Larry Dunn of the Striders and Harold Busby of the UCLA frosh, who upset Nebraska's Charlie Greene in the 220, 20.7 to 20.9. All sprint times were wind-aided. The two-mile saw Tracy Smith dash past Belgium's Gaston Roelants on the first curve of the fifth lap and gradually build his lead to a sizeable win. He was clocked in a career outdoor low of 8:34.4 with 63.1 and 61.4 last laps, ahead of Roelants (8:47.6) and Ron Larrieu (8:48.8). Don Shy of San Diego State almost nabbed Willie Davenport in the highs as both were clocked in a windy 13.7. Abilene Christian copped both the sprint and distance medley relays, in 3:21.2 and 9:51.6 as Charlie Christmas ran 1:50.5 and 4:06.9.

In the California Junior College championships contested simultaneously, the best performance from an international point of view was the 16'5 $\frac{1}{2}$ " posted by Pasadena's Dick Railstack and San Mateo's Dennis Phillips--both for lifetime and JC bests. Two remarkable endurance efforts were performed by Hancock's and England's Neill Duggan and Foothill's Russ Hodge. Duggan won all three distance events in 4:09.4, 1:49.9 and 9:05.6 in a spread of two hours and forty five minutes. Hodge won only one event but established three lifetime bests and barely missed a fourth--all in the decathlon events he must contest. Lifetime bests included 56'1 $\frac{1}{2}$ " for first in the shot, 171'1 $\frac{1}{2}$ " for third in the discus, and 9.6w for third in the 100 after a remarkable start. He missed his best in the long jump by two-inches with a windy 23'9 $\frac{1}{2}$ " for fifth. San Jose CC's Lee Evans took the 440

in 46.9 and ran his leg of the mile relay in 46.5.

Stevenson, Maryland Annex IC4A Titles

by Jim Dunaway

New York City, May 27-28--Meet records fell in three events as Maryland's field strength held off Villanova's running to win the IC4A title for the second straight year. The margin was 40 to 32 in a formful meet.

Jim Stevenson, the Penn State senior who won the Olympic Semi-Trials on the same Randalls Island turf two years ago, broke the javelin mark with a toss of 244'5 $\frac{1}{2}$ ". He is still rankling over losing his place on the Olympic team, and hopes to make it stick in 1972. Stevenson's tendon trouble of last year is over, and he is getting outside coaching by mail from Topi Luoma, a Finnish javelin coach.

Bill Belfer of Seton Hall, one of the lightest discus men at 215 lbs. (and still reducing, he says, "At 230 I was fat, and I'd rather be fast"), first raised the discus mark to 175'10" in the trials and then to 178'0" in the finals.

And Bill Norris, the Boston College junior who set a meet record of 9:16.4 in the steeplechase last year, lowered it to 9:07.8 this time, kicking past Jim McDermott of Georgetown to win.

Maryland had only two firsts, Frank Costello's 6'10 $\frac{1}{4}$ " high jump and Ed Marks' 49'6 $\frac{1}{2}$ " triple jump, but added five seconds and two thirds to wrap up the title. Sprinter Jim Lee got most of Maryland's track points. In the 100, Lee had a poor start and couldn't catch Fordham's Sam Perry, who either got the best start of his life or guessed the gun, yet ran only 9.6 on the somewhat soggy track. In the furlong, Lee ran the curve well but defender Carl Horner, recovered from a slight leg injury and full of confidence, picked up four yards in the straight to win in a 21.2 that looked faster.

Villanova's team effort was based on an 880-mile double by sophs Dave Patrick and Ian Hamilton. They ran 1-2 in a 4:08.6 mile but failed to catch Rich Urbina and Herb Germann in the stretch of the half. Urbina won by 10 yards from Germann in 1:50.7.

Dave Hemery of Boston tied the meet record in the highs with 14.1 and equalled Dick Johnston's winning time (51.8) as he placed second in the intermediates. Then Hemery flew to England

Life of a Track Coach's Wife

by Marvin West

reprinted from Knoxville News-Sentinel

"Run For Your Life" is a Sunday stroll compared to the bris-daffy, happy pace of Jeanne Rohe, Mrs. Track Coach for 13 years. From her debut as pimento cheese sandwich salesgirl to the current 3.2 senior average in sociology, Jeanne has crowded two youngsters and a lovely artistic life of her own into the break-neck whirl maintained by Charles H. (Chuck) Rohe, the country's only 20-hours-a-day track coach.

Jeanne almost never gripes, admires Chuck's enthusiasm, shares his optimism and enjoys his success. She tolerates his many trips, serves as assistant secretary, helps stage track meets and run a "quick stop" restaurant in her own kitchen. On top of it all, she believes Chuck's 120-per-cent motto: If better is even possible, go it is not enough.

"It's a blessing to have a happy husband, a man who truly loves his work," said Jeanne. "I used to be jealous of track. We didn't have family cookouts like our neighbors because Chuck was always somewhere working on something. But he never has a dark day, he never gets discouraged, he never feels the rain. I guess the track team gets fed up with his exclamations of 'What a day!' but he really feels that was... that every day is a delightful experience if you'll just make it one."
