TRACK & FIELD NEWS SEEKS EDITORIAL ASSISTANT

Track & Field News is seeking a replacement for Joe Henderson, who has announced his acceptance of the editorship of Distance Running News--effective mid-January. Joe will have spent most of his three years with T&FN primarily as our statistician but also as a writer. His loss to T&FN will be significant.

The specifics of the opening are flexible, for the new employee may work either full-time or three-quarter time and his primary interest may be in either statistics or writing. While we primarily work with a three-man editorial staff, additional help is required to augment personal schedules and during heavy work periods. In addition, Jon Hendershott's versatility and experience in the past two years will permit him to remain in his current primary writing position or to switch to the seat of the statistician.

Essentials required for either position, since neither is exclusively maintaining stats or purely writing, include (1) track knowledge; (2) writing ability; (3) statistical sense; (4) above average typing skill; and (5) willingness to get the job done--under pressure, sometimes after hours and without concern for the importance of the task. College undergraduates or advanced degree candidates or recent university graduates have usually served our needs best in the past.

If you're interested in receiving a detailed description of the qualifications required and potentials available, write immediately to Dick Drake, Managing Editor, Track & Field News, P.O. Box 296, Los Altos, California 94022. Or phone Area Code 415 948-3188.
