## HOW OLYMPIC CHAMPIONS RATED THE YEAR BEFORE IN WORLD RANKINGS

As this chart shows, heading the *T&FN* rankings in a pre-Olympic year is certainly no prerequisite to winning an Olympic title. The years at the head of each column represent the Olympics, the numbers in each column indicate where the O-

lympic champ for that year ranked in that event the previous year. In 1972, only 5 of 22 individual champs were 1st in 71, and 10 weren't ranked at all.

## NCAA CHAMPIONSHIPS PREDICTIONS

by Garry Hill

The predictions are the personal opinions of the compiler and do not necessarily represent the views of the editorial staff of *T&FN*. The choices should be regarded as educated guesses and nothing more. The placing of an athlete in one event rather than another/both (e.g., Wottle in the mile alone) in no way represents where that athlete will compete in the meet.

The choice of events has been made by the compiler. Likewise, the appearance of an athlete's name in the predictions should not be taken as a definite indication that he will even appear at the meet. For those interested in the team battle, these predictions give UCLA the crown quite handily.

# WORLD RECORD PROGRESSIONS (10)

compiled by Dave Terry (Heston, GB)

This is the seventh installment in a series chronicling the development of the best performance in each event. The listings give both the IAAF-accepted records (denoted by \*) and

the progression of the "bests" (i.e., statistically acceptable marks never officially ratified).
