## WHO WILL MAKE THE 76 OLYMPIC TEAM?

Prediction time! It hasn't even been a year since Munich, but let's start Olympic fever early by trying some Montreal forecasting. All of you prognosticators out there, send us your choices for the 76 American Olympic squad.

We want to know who you think will comprise that team. Send in 3 names per event, and we will tally them. There are no prizes or gimmicks here. This is just a general public infor-

mation deal. We will publish the results in the next TN. And we can update it in a while. So, if you have any thoughts along this line, feel free to share them with your fellow TN readers. We must receive entries by Aug. 20. Send them to Predictions, Track & Field News, Box 296, Los Altos, Calif. 94022.

## ALL-TIME US WEIGHT TRIPLERS

compiled by Dave Batchelor (Pittsburgh, Pa)

as of May 20, 1973

This compilation lists the leading combination shot, discus and hammer throwers in US history, using 3 different tables. The primary listing (used to determine the numerical order) is by the Portuguese Tables. The athletes are also rated by the IAAF tables and Batchelor's own "New England" tables.

"I have called these the New England Tables," says Batch-

elor, "because for so many years the hammer center of the US was the New England area. The other two scales (Portuguese and IAAF) have the values for the shot and disc close but leave the hammer far behind. My scale brings the 3 events into alignment with each other."

# 1973 WORLD LIST

This list contains the top performers and performances in the world since Jan. 1, 1973, both indoors and out. It contains all marks reported to *T&FN* by July 18. Performers within the performances section (denoted by an underscore) are listed chronologically. The rest of the performers are listed alphabetically when credited with the same mark.

Marks in the 200, 400 and 800 are directly converted from the 220 (0.1), 440 (0.3) and 880 (0.7). Marks in the 100, 1500, 5000 and 10,000 have rough conversions and rather than being converted to metric equivalents, yard marks are placed in positions of relative worth.
