IMPORTANT NOTICE

Greetings faithful readers. Welcome to another year of the best in track-results reporting. It's nice to have you along again. You may already have noticed from the box on the second side that TN has a new frequency this time out. We have had to cut back (due to economic factors) to 18 issues per year. This in itself won't mean any diminishment in our coverage, however. If you will look back at the 1974 year you will find that we also published 18 times during the calendar year. The other two issues in the volume were printed in late 1973. People who signed up for longer-term subscriptions in earlier years will

still receive the number of issues they paid for.

What you will lose this year is a few pages. In the past, we have endeavored (and succeeded) in filling 10 pages for every issue. Due to an expressed lack of interest in the TrackStats material which used to fill the end of those issues which did not have 10 pages of news, we have cancelled this section. So, the amount of statistical material is going to be diminished slightly. But overall, the amount and frequency of hard-core news you receive will be exactly the same as it was last year.
