One of the big projects of the ATFS (Association of Track & Field Statisticians) is the reconstruction of yearly world lists for 1929-1949. One of the problem areas is the United States, as there was little work done in this country in those days in regards to collation of marks. The ATFS would like help. Help in digging up non-winning marks in some big meets, results from dual meets and prep competitions, birthdates (or years).

This task is one which will require extensive work in library research, perhaps contacting universities, etc. If you think you might be able to help on this project, contact Roberto L. Quercetani at 16 Via Giovanni Inghirami, 50101 Firenze, Italy.
