• NCAA CHAMPIONSHIPS PREDICTIONS •

One of the toughest NCAAAs to handicap, ever, as ascertaining just who will run in which events was almost impossible as of a few days before the meet. Nyambui might try that 1500/5000 killer. Paige will apparently go 800/1500, and Maree might also go 1500/5000. And, with Villanova apparently interested in making a

very big push, Korir may go St/10,000.

As far as we know Rono doesn't have a qualifying mark in the 10,000, so apparently will not show there. With Washington State not in the thick of the team battle, will he try a St/5000 double?

And the 800 is a real craphoot, with nobody being able to establish real dominance. Just like in the good old days, the 800 semis could be the best races of the meet.

These predictions show a very tight team battle, with Oregon and UTEP knotted at 50 points, with UCLA at 40 and Villanova at 37.
