USATF: Stars Missing, 4 ARs Anyway

Knoxville, Tennessee, June 14-18—The face of the U.S. national championships entered a new era in 1989. It was at that juncture that some of the sport's biggest stars decided that in a year in which there was no Olympic or World Championships berth on the line, there was no point in their competing in a non-money meet. The meet suffered accordingly.

It looked as if 1990 would be more of the same, but when participation was linked with lucrative Goodwill Games deals, the talent level definitely perked up.

Unfortunately for this year's USATF Championships, athletes were able to cut their own Goodwill deals, so a significant portion of the big names (significantly including most of the Santa Monica TC) chose to ignore the Tennessee experience. So did enough second-tier athletes that too many events seemed rather hollow.

On the other hand, no fewer than four American Records—men's PV and HT, women's 10kmW and TJ—were recorded, more than the last Olympic Trials and two WC Trials combined.

Attendance was generously announced at 5417, 6433 and 6648 (total 18,498) for the last three days. Weather was expectedly sultry, and days two and three featured long rain delays.
