Humphreys Throws 203'5"

LONG BEACH, CALIF., July 14 -- Veteran Bob Humphreys moved up to number two on the all-time list with a tremendous discus heave of 203'5" (62.00 meters) in a Long Beach State all-comers meet. Only Al Oerter's recent world record of 204'10½" exceeds Humphreys' effort.

Taking full advantage of a quartering breeze Humphreys had the following series: 197'9½", foul, 196'11½", foul, 196'6½" and 203'5". Humphreys previous personal best of 190'6" was set earlier this season. Former world record holder Rink Babka also set a personal best in second place, reaching 197'6½". He also had another throw of 194'9½". Parry O'Brien was third at 182'6½". Javelin thrower Frank Covelli of Arizona State also threw well, reaching 249'4½" on his fifth throw. Covelli had a previous personal best of 245'7" set in 1960.

Humphreys also won the shot at 57'5", his best of the season. "A discus thrower never knows what he will do until that first one," Humphreys said, "but I knew this would be a good day when I threw over 190 feet on my first warm-up. My goal for the day was 192". I didn't prepare as I would for a national championship meet, but the presence of Babka and O'Brien added incentive. I've only beaten Rink once before." HT, Pryde (Santa Barbara AC) 175'4½"; 2. Frenn (Abilene Christian) 167'9½"; 3. Lennon (Cal Poly) 167'4". PV, Flanagan (S. Calif) 15'; 2. Buchanan (Mt. Sac JC) 14'6". 2 Miles, Murphy (SJS frosh) 9:12.9; 2. Robertson (una) 9:13.2.

Paul Herman Wins Pentathlon Title

BOULDER, COLO., July 7 -- National decathlon champion Paul Herman scored heavily in the discus to dethrone Bill Toomey as the national pentathlon champion with 3,389 points. Herman threw the discus 136'6" for 672 points while Toomey's effort of 83'1½" was only worth 282 points. Toomey, who set a record, 3,484 points last year, was second with 3,177 points while third went to Russ Hodge of the air force with 2,964 points. Herman also broad jumped 23'6", threw the javelin 206'2", ran the 1500 meters in 4:42.5 and the 200 meters in 23.5. Besides his discus performance, Toomey had other efforts of 21.7 in the 200, 4:35.1 in the 1500, 23'3½" in the broad jump and 180'9" in the javelin. The best mark of the day was turned in by Frank Frye, who threw the javelin 227'6½".

Five More American Wins

LONDON, ENGLAND, July 14 -- Jay Silvester reached his all-time best in the discus as American athletes accounted for five victories at the British AAA Championships. Silvester threw the discus 199'7", a mark which better his recognized world record of 199'2½" set last year. However, that mark has been broken several times this season. Silvester became a double winner with a shot put effort of 59'7½".

Cary Weisiger won the 880 in 1:50.1, his best time of the season, while the U.S. won two hurdles events. Blaine Lindgren scored a 14.2 win in the high hurdles and Russ Rogers posted a 51.0 victory in the 440 hurdles. Dave Tork once again met world record holder Pentti Nikula of Finland and the outcome was the same with Nikula winning at 15'3" with Tork second at 15".

The distance runs featured the meet. In the six mile 5'5" Roy Fowler turned in the second greatest performance of all time with his 27:49.8 but narrowly won as Mike Bullivant was second in the same time. Martin Hyman was third in 27:52.0 followed by Melvin Barry in 27:56.6, John Merriman in 28:11.4 and Gerry North in 28:11.6. In the three miles, Bruce Tulloh ran 13:16.0 to beat Canada's Bruce Kidd, who took second in a personal best 13:17.0. Derek Ibbotson followed in 13:23.0.

Not to be overlooked was a great 440 by Robbie Brightwell, who took the European record away from countryman Adrian Met-

calfe with a fine 45.9. Metcalfe set the previous record of 46.4 last season. 100y, Antao (Kenya) 9.8. 220t, Antao 21.1. 440, 2. Davis (South Africa) 46.5; 3. Wilcock 47.2. 880, 2. Purkis 1:50.3; 3. Harris 1:50.4. Mile, Taylor 4:04.8. 3000SC, Herriott 8:43.8; 2. Chapman 8:46.4; 3. Pomfret 8:54.0. 440H, 2. Rintamaki (Finland) 51.1; 3. MacDonald (South Africa) 51.9. HJ, Sugioka (Japan) 6'10½"; 2. Ridgway (Australia) 6'8". DT, 2. MaJan (South Africa) 186'; 3. Lindroos (Finland) 182'10". JT, McSorley 260'. HT, Okamoto (Japan) 204'½". BJ, Valkama (Finland) 25'1½".

Double Victory For Silvester

STOCKHOLM, SWEDEN, July 18 -- Former world discus record holder Jay Silvester continued to win on the European tour as he threw the shot 57'6½" and the discus 191'10½" in an international meet. Hurdlers Blaine Lindgren and Russ Rogers scored the only other American victories, Lindgren clocking 14.6 in the highs and Rogers posting a 51.5 in the intermediates. Tom Holmestrand edged Cary Weisiger in the 1500, 3:48.8 to 3:49.0 and world record holder Pentti Nikula of Finland once again beat Dave Tork in the pole vault, 15'9" to 15'5", as Timo Koskela of Finland took third at 15'1½". 800, Balke (Germany) 1:49.7. 5000, Roelants (Belgium) 13:53.9. DT, 2. Haugen 180'10". HJ, Pettersson 6'11½"; 2. Hellen (Finland) 6'9½".

Connolly, Brumel Set World Records

by Bert Nelson

Stanford, Calif., July 21 & 22--Thirty-year-old Hal Connolly and 20-year-old Valeriy Brumel improved on their own world marks as the American track and field team easily defeated the best ever Russian squad in a meet of superlatives.

Connolly, the American hammer throw veteran, whirled his instrument 231'10" (70.67m) while the youthful Soviet high jumper cleared 7'5" (2.262m).

The U.S. piled up its highest total of the four meet series, scoring 128 points. The Russians, fielding a team acclaimed by coach Gabriel Korobkov as "our strongest ever", tallied 107.

A dozen meet marks were broken and another tied, along with U.S. national records in the 1500 and USSR records in the shot and 1500. American all-comers records fell in the hop-step-jump, 10,000m and 20 kilometer walk.

Another record that may have fallen is that for the largest crowd ever to watch track in this country. Final official figures will not be available for a while yet, but the estimated attendance for Sunday was 81,000, a total which may or may not have been surpassed by one day of the 1932 Olympic Games. Saturday's throng was figured at 72,500, giving a two-day count of 153,500. (The 1959 meet in Philadelphia drew 54,000 for the two days and the 1960 Olympic trials at Stanford attracted 108,000.)

The meet was extremely well run and excitingly presented under the guidance of meet director Payton Jordan, Stanford coach, and his assistant, Jim Terrill.

Connolly's brilliant throwing was something of a surprise. Although the world record holder (230'9") and 1956 Olympic champ, the Santa Monica school teacher was not favored against the strong Russian duo. He had lost his last two meetings with Al Hall and was busy at the University of Michigan preparing for a teaching assignment in Finland.

But Hal was ready and lost little time in demonstrating it. He threw 227'10" the first time into the cage, putting immense pressure on his rivals and allowing himself to shoot the works. Using three turns, Connolly next threw 225', his shortest of a magnificent series, then did 228'10½", 227'2", 231'10" and 227'7".

"People were beginning to think I was all washed up", said Connolly. "I've been experimenting with four turns. It worked well most of the time, but it broke down under the pressure of big meets. With the three-turn method I could just get in there and throw. When

(continued on page 188, column one)

REMEMBER? The first six placers in the 1952 NCAA broad jump. From left to right: GEORGE BROWN, F. MORGAN TAYLOR, MEREDITH GOURDINE,

NEVILLE PRICE, FRANK FLORES and LANCE THOMPSON. Brown won at 25'4 1/2" while Gourdine went on to win the Olympic silver medal.

BILL CARROLL was a 14'5" pole vaulter in 1950. He is now coach at Oklahoma.

KALEVI KOTKAS, Finland's 6'8 3/4" high jumper and 168'2 1/2" discus thrower who held the European high jump record for 18 years.

HENRI LABORDE, former Stanford star, was second in the 1932 Olympic discus and had an all-time best of 165'3 1/2".

California's GROVER KLEMMER formerly held world records at 400 meters and 440 yards. His all-time bests were 46.0 for the 400 and 46.2 for the 440.

MAL WHITFIELD edged BOBBY SEAMAN in the 880 at the 1954 Compton Invitational. Whitfield's time was 1:49.8 and Seaman's clocking of 1:49.9 stood as a national frosh record until 1961.

Zealand's JACK LOVELOCK, 1936 Olympic 1500 m champion and ex-world record holder.

Former Michigan State middle distance greats JACK DIANETTI (left) and BILL MACK. Dianetti had bests of 1:50.8 and 4:12.0 and Mack 4:09.6.

you have to think, it's no good."

Brumel, too, was the complete master of his opposition. He shook off John Thomas, who set the world record in this pit at 7'3 $\frac{3}{4}$ " in 1960, and Viktor Bolshov at seven feet, while Gene Johnson went out an inch higher. Valeriy passed the opening 6'4 $\frac{3}{4}$ " and then 6'7". He made 6'8 $\frac{3}{4}$ ", 6'10", 7' and 7'1" the first time up, but had one miss at 7'2". Seven-three proved no problem and then he went to 7'5", $\frac{3}{4}$ " over his previous best.

Taking his quick run past the straw bales of the pole vault pit, Brumel soared up and over on his first try. He left the bar slightly quivering but in no danger of toppling. Although he was able to try 7'6" rather quickly it was anti-climactic and he never came close.

"I knew the people in the stands wanted a record so I tried extra hard" commented Valeriy. The grass takeoff area is fine but it really makes no difference to me what type of surface I use."

Best race of the meet was the 1500 which produced two national records. An easy time was expected for the U.S., which was not pressed at any other distance under 3000 meters. But Ivan Byelitskiy surprised by leading into the final furlong and by holding off Keith Forman. Beatty kicked home in 3:39.9 with Byelitskiy running 3:41.0 and Forman 3:41.2.

Pyotr Bolotnikov figured in the only real strategy of the meet and ended up winning plaudits for a rare 10,000-5000 double. He was expected to run only the five, but when Max Truex was moved up to the ten on Saturday, the Russian Olympic champ also moved. He won easily in 29:17.7 as Truex came up with a bad set of blisters and finished third. Bolotnikov came back the next day for his second unpressed triumph, covering the 5000 in 13:55.6.

Ralph Boston won the duel of history's only two 27 footers although Igor Ter-Ovanesyan had the better series. The margin was 26'9" to 26'6 $\frac{3}{4}$ ".

In another man-to-man duel of record breakers it was Al Oerter who emerged an easy winner. Bucking an adverse wind, Big Al threw 200'1 while Vladimir Trusenov managed only 189'9" to take third behind Rink Babka's 193'10 $\frac{1}{2}$ ".

In the women's competition everything went as expected. The U.S. won the sprints and nothing else while the Soviet gals won the meet, 66 to 41. (Women's summary in August T&FN.)

1932 OLYMPIC GAMES

Bausch Sets Decathlon Record

By Wally Donovan

In the greatest decathlon competition in history, 26-year-old James Bausch, a 6-foot, 220-pound native of Kansas, emerged as the upset winner of the Olympic decathlon with a world record of 8,462.23 points under the 1912 scoring tables.

Bausch broke the old world record of 8,255.475 points held by 27-year-old Akilles Jarvinen of Finland, the favorite who placed second with 8,292.48 points, also over his old world record.

In third place with 8,030.80 points was Wolrad Eberle of Germany. Wilson Charles of the U.S., an Oneida Indian who led at the end of the first day's competition, finished fourth with 7,985.00 points. Hans-Heinrich Sievert of Germany followed with 7,941.07 points and the defending champion, Paavo Yrjola of Finland, was sixth, scoring 7,688.09 points.

Four of the 15 competing athletes were forced to withdraw because of injuries. They were Carlos Woebekin of Brazil, Zygmunt Siedlicki of Poland, Janis Dimisa of Latvia and Hector Berra of Argentina. Berra injured his back while broad jumping and at the time was in second place. Dimisa, half of the two-man Olympic team from Latvia, was perhaps the most heart-breaking of all the withdrawals. At the end of five events he was in second place. In the high hurdles he lost a shoe, thus hampering his performance. Then in the pole vault he wrenched his ankle.

Bausch scored more than a 1,000 points in the javelin and pole vault. He first gained fame as a football player at the University of Kansas. He had attended high school in Wichita and started his college career at the University of Wichita but later transferring to Kansas. He lost 15 pounds during the course of the competition. He did better than ever before in six of the 10 events, scoring personal bests in the 1500, shot put, broad jump, 400 and the pole vault and javelin.

Jarvinen, brother of Matti, the javelin winner, was almost as spectacular. His throw of 200'1½" in the javelin earned him exactly 1,000 points. He also was well up in the pole vault, 100 and 400.

Oddly enough, had the 1952 scoring table been used, Jarvinen would have won. Using the 1952 table he scored 6,707 points compared to Bausch's 6,588.

FIRST DAY (Friday, August 5)

100 Meters (10 a.m.): Carlos Woebekin of Brazil, running in the first heat, pulled a tendon and did not finish, cutting the field to 14. Berra and Jarvinen each ran 11.1, scoring 881 points apiece, for the best showing. Sievert and Eberle each ran 11.4 while Bausch could only manage 11.7. Charles with 11.2 and Clyde Coffman, Robert Tisdall and Dimisa with 11.3's all scored well. The top six after the first event were: tie, Berra and Jarvinen, 881; 3. Charles 857.20; 4. tie, Coffman, Dimisa and Tisdall 833.40.

Broad Jump (11 a.m.): Charles took the lead after two events by leaping 23'9" for 911.80 points. Dimisa was close behind at 23'8½" (906.90). Dimisa had one jump of 24'6" but fouled by a fraction of an inch. Berra had the third best jump (23'5"), which earned him 887.30 points but he injured his back and was forced to withdraw, cutting the field to 13. Jarvinen and Sievert were well up in the jump, each scoring better than 800 points while Bausch also did well, leaping 22'9½" for 840.75 points. The top six: 1. Charles 1769; 2. Berra 1768.30; 3. Dimisa 1740.30; 4. Jarvinen 1734; 5. Sievert 1655.25; 6. Coffman 1630.05.

Shot Put (2:30 p.m.): After lunch Bausch showed this was one of his best events by getting off a heave of 50'3" for 998 points. No one else was even close. This performance moved him from ninth to second. He was now only 62 points behind Dimisa, who had taken the lead from Charles with a throw of 47'¼" worth 899 points. Sievert went from fifth to third with a 47'7" heave (916 points) while Charles fell back to fifth with a poor effort of 41'2½" (722 points). Jarvinen remained in fourth although he scored only 777 points with a 43' effort. Eberle displaced Coffman among the top six with his 43'4½" (788 points). Coffman failed to reach 40 feet. The top six: 1. Dimisa 2639.30; 2. Bausch 2576.95; 3. Sievert 2571.25; 4. Jarvinen 2511; 5. Charles 2491; 6. Eberle 2394.25.

High Jump (3:30 p.m.): No one was able to get over 6' except Charles, who went an inch above that mark and scored 888 points to move in to second place. Dimisa retained the lead as he tied Sievert at 5'10" for 790 points. Sievert's jump kept him in third ahead of Jarvinen, who scored 748 points with a leap of 5'9". Bausch fell off to fifth as he got over 5'7" but Yrjola displaced Eberle as the sixth man with a 5'9" leap. Eberle only cleared 5'5" but Coffman gained some ground with a 5'7". The top six: 1. Dimisa 3429.30; 2. Charles 3379; 3.

Sievert 3361.25; 4. Jarvinen 3259; 5. Bausch 3254.95; 6. Yrjola 3048.90.

400-Meter Run (5:30 p.m.): In the last event of the day, Tisdall, the 400-meter hurdle champion, showed his great speed by running 49.0, worth 969.92 points. He was the only one to break 50.0 and his performance moved him into seventh place. Charles took the lead with a 51.2 that gave him 887.20 points. He had about an 85 point bulge on Dimisa, who ran only 54.8 in this event. Jarvinen moved from fourth to third with a 50.6 and 909.76 points. Sievert dropped to fourth with an ordinary 53.6. Bausch remained in fifth but his performance of 54.2, although a personal best for him, was one of the worst among the field. Eberle went back into sixth, displacing Yrjola as the German beat the Finn's time by almost two seconds. At the end of the first day the top six were: 1. Charles 4266.20; 2. Dimisa 4181.14; 3. Jarvinen 4168.76; 4. Sievert 4158.21; 5. Bausch 4029.35; 6. Eberle 3904.49.

SECOND DAY (Saturday, August 6)

110-Meter Hurdles (10 a.m.): The two best hurdlers in the field were Erwin Wegner of Germany and Tisdall. Wegner turned in the best time with his 15.4 for 962 points but Tisdall was only a tick behind with a 15.5. Among the leaders Jarvinen was the only one who broke 16.0 and his 15.7 earned him 933.50 points to move him into second place. Charles remained out in front with a 16.2 for 886 points, the same time being run by Bausch. Sievert stayed in contention with a 16.1. Dimisa and Eberle were both well down and Eberle's poor showing enabled Tisdall to move among the top six. The top six: 1. Charles 5152.20; 2. Jarvinen 5102.26; 3. Sievert 5053.71; 4. Dimisa 5048.14; 5. Bausch 4915.35; 6. Tisdall 4842.82.

Discus Throw (11 a.m.): Bausch scored his second victory of the competition as he spun the platter 146'3" to nose out Sievert by 1½ inches. Both of them scored more than 970 points and they were better than 10 feet ahead of the third place throw. Sievert's great throw, coming on his last attempt, rocketed him from third into first. Bausch moved from fifth to third. Charles' best attempt was only 127' (753 points) and he dropped into second. Dimisa remained in fourth, reaching 133'9". Jarvinen did poorly in the event, managing only a little better than 120 feet as he fell from second to fifth. Eberle once again moved into sixth. The top six: 1. Sievert 6028.25; 2. Charles 5905.20; 3. Bausch 5891.41; 4. Dimisa 5879.04; 5. Jarvinen 5782.68; 6. Eberle 5595.93.

Pole Vault (2:30 p.m.): The pole vault lapsed exactly three hours and Bausch finished up the competition at 5:30 with his third and final try at 13'6". He had to settle for 13'1½", which was still a tremendous effort worth 1027 points. This put him into a lead he never lost. He had now scored 6918.41 points and was within striking distance of a world record. Coffman's performance in this event was equally outstanding as he also did 13'1½". Jarvinen retained fifth place with a 11'9¾" vault worth 811 points. Dimisa earned enough points (757) to stay in second with his 11'5¾" clearance but the Latvian suffered a wrenched ankle and could not continue. Siedlicki also dropped out after vaulting 9'10". This two dropouts cut the field to 11. Sievert hurt his ankle and cleared only 10'6". However, he still remained in third. The pole vault also proved troublesome for Charles, who got over 11'1½" but wrenched his back slightly and could not go higher. He held onto fourth. The top six were: 1. Bausch 6918'41; 2. Dimisa 6636.04; 3. Sievert 6623.25; 4. Charles 6608.20; 5. Jarvinen 6393.68; 6. Eberle 6352.93.

Javelin Throw (5:30 p.m.): With Dimisa out of the competition and Sievert and Charles handicapped by injuries, Bausch faced his sternest test from Jarvinen, who was now in his best event. The Finn's first throw went out 200'1½", and that gave him exactly 1,000 points. However, Bausch showed his greatness by coming right back with a 201'1" heave. Jarvinen was unable to improve on his next two throws and Bausch wrapped up the gold medal by improving to 203'1½", earning him 1025.02 points and a total score of almost 8,000 points. The others were almost forgotten as the crowd thrilled to this fine duel between two decathlon giants. Eberle strengthened his position by moving from sixth to fourth with a good heave of 188'7½". Yrjola moved into sixth with his 184'1½" and Sievert held onto to fifth with a 176'10½" throw. Charles fell to fifth with a poor performance. The top six: 1. Bausch 7943.43; 2. Jarvinen 7593.68; 3. Sievert 7428.27; 4. Eberle 7256.40; 5. Charles 7243; 6. Yrjola 6931.69.

1500 Meters (7 p.m.): The deepening shadows of a beautiful Southern California evening cut across the Olympic stadium as a crowd of more than 40,000 remained in their seats for the final test of stamina, the 1500. Bausch had a lead of 350 points on Jarvinen and only a super performance by the Finn could take the gold medal away from the American. Sievert was only about 165 points behind Jarvinen and Eberle and Charles also were hoping for medals.

Six men went to the post in the first heat: Coffman, Yrjola,

(continued on page 192, column one)

(1) The athlete pictured above is quite a football player and trackman for the Buckeyes. He placed in the NCAA and AAU.

(2) The son of a famous runner, this athlete was a good middle distance runner in high school and continues to be in college. (Murdock photo)

(5) One of several good 440 men for the Beavers, he was a finalist in both the 1961 and 1962 NCAA meets. (Murdock)

(6) A former world record holder, this 34-year-old did some throwing this year. The spear bears his name.

Luck. 5. Norm Monroe. 6. Bud Held. 7. John Lawler. 8. Dave Mills.

1932 OLYMPIC GAMES

(continued from page 189)

Harry Hart, P. Bascalmasi, Charles and Sievert. Yrjola took the lead at the early stages and then let Coffman in front of him on the third lap. Yrjola then regained the lead and won easily in 4:37.4 and Charles, fighting for a medal, put on a great finishing spurt to take second in 4:39.8. Sievert ran only 5:18.0 and Charles moved into third.

Eberle, starting in the second heat with Bausch, Jarvinen, Wegner and Tisdall, needed more than 729 points in order to nudge Charles for the bronze medal. Tisdall went out into the lead at the start and Bausch dropped back to last with Jarvinen about 20 yards in front of him. Bausch appeared content to let the leaders do what they wanted. Starting the third lap, the two Germans, Eberle and Wegner, moved into the lead as Jarvinen started to drop back. Bausch in last place was now a quarter of a lap behind the leaders. The order was the same as they started the final lap with Tisdall making a bid. With a half lap to go Jarvinen started to pick up as Tisdall and Eberle put on a terrific battle for first. The judges called it a dead heat as both were timed in 4:34.4. That meant that Eberle had taken the bronze medal away from Charles. Jarvinen sprinted to take third, scoring by inches over Wegner. The Finn's time was 4:47.0 and it gave him a total of 8292.48 points, which bettered his world record. Bausch finished a tired last but his 5:17.0 brought his total to 8,462.23 points, a world record.

The huge crowd gave Bausch a tremendous ovation as the curtain came down on this greatest of all 10-event tests. He had upset the favorite and had taken the world record away from him. James Aloysius Bernard Bausch was the greatest all-around athlete in the world.
