## EUGENE, OREGON, JULY 15-24

### ATTENDANCE

Organizers released a figure each day called "ticketed persons total." Their numbers: 13,646/19,543/21,065/13,511/11,865/10,881/11,253/ 2,054/17,044/15,171 — 146,033.

### WEATHER

Official temperature (both F and C) and humidity readings are given with each final. The figures are for the start of the event; for those with a longer duration the range is listed.

### EXPLAINING THE TYPOGRAPHY

Paragraph breaks in the preliminary rounds of running events indicate the separation between qualifiers and non-qualifiers.

### SPLIT TIMES

The official timer, Seiko, provided excellent splits using chip technology.

### FIELD CHARTS

In the by-round field charts (all throws, horizontal jumps), the athlete's best of the day is marked by ¶. The asterisked marks represent the progression of the lead.

### WHAT'S IN VERSION ii?

Note that this newsletter is marked as "version i." We frequently issue a version ii (or even iii) for major champs, catching up on all the little errors that can creep into a work of this magnitude.

## What Are All Those Symbols?

We realize that there is a lot of material to absorb in our agate (“agate” is journalese for small-type results), so let’s see if we can’t clarify it a bit for you.

A combination of numbers and letters in parentheses, such as “9, x W” would mean tha the person had moved to No. 9 on the all-time world list, with a performance outside the top 10. Had it say, been the No. 9 performance, the notation would have been 9, 9 W.

You might also find something like “x, 6 A”. The x in the first position means the mark is not a PR, but the performance is No. 6 in U.S. history.

We note all-time list positions for World (W), U.S. (A), College (C), Juniors (WJ or AJ) and High School (HS).

We also denote yearly list leaders for the World (WL), U.S. (AL), College (CL; Division I only) and High School (HS).
